Curriculum Vitae | Yuqi Yang

Ph.D. Candidate in Supply Chain Management
NASPO Department of Supply Chain Management
W.P. Carey School of Business, Arizona State University
yyang450@asu.edu | https://yuqiy.github.io/

Education

Arizona State University — Tempe, Arizona
Ph.D. Candidate, Supply Chain Management — 2021 – 2027 (expected)

Rensselaer Polytechnic Institute — Troy, New York
M.S. in Supply Chain Management, Lally School of Management — 2019 – 2020

Sichuan University — Chengdu, China
B.A. in English; second major in finance — 2015 – 2019

Research Interests

Topics: Online platform operations; pricing and revenue management; consumer choice and demand estimation; product development and experimentation.

Methods: Bayesian optimization and Gaussian processes; convex optimization; discrete-choice modeling; dynamic programming; game theory; maximum likelihood and hierarchical Bayes estimation.

Working Papers

1. **Experimentation in Complex Environments with Learning Spillovers: Applications to New Product Development**
   Yang, Y., Guda, H., and Li, H.
   Major Revision, *SIG of Manufacturing & Service Operations Management*

2. **Familiarity-Based Dynamic Pricing with Hierarchical Bayes Estimation of Customer Choice**
   Kou, B., Yang, Y., and Li, H.
   Reject and Resubmit, *Management Science*

3. **Competitive Pricing in the Presence of Manipulable Information in Online Platforms**
   Guda, H., Yang, Y., and Li, H.
   Under review (with a first-round decision as Reject and Resubmit), *Production and Operations Management*

4. **Managing Product Returns with Incomplete Data: Theory and Empirical Evidence**
   Yang, Y. and Li, H. and Zheng, M.
   Work in progress

Talks & Presentations

"Competitive Pricing in the Presence of Manipulable Information in Online Platforms"

- ◇ INFORMS Annual Meeting, 2022, 2023.

"Experimentation in Complex Environments with Learning Spillovers: Applications to New Product Development"

◇ INFORMS Annual Meeting, 2024; POMS 2026

Teaching Experience

Arizona State University

Spring 2026 SCM 432 Operations Management, *instructor (6.9/7.0)*

Fall 2025 SCM 432 Operations Management, *instructor (6.4/7.0)*

∗ **Undergraduate Core Course**

∗ **Topics:** Process analysis; demand forecasting; inventory and queuing models; capacity planning

Fall 2024 SCM 516 Descriptive and Predictive Supply Chain Analytics, *teaching assistant*

Fall 2023 SCM 516 Descriptive and Predictive Supply Chain Analytics, *teaching assistant*

∗ **MSBA Core Course**

∗ **Topics:** Business statistics; linear and logistic regression; time-series forecasting

Teaching Interests

Operations management; supply chain management; pricing and revenue management; business analytics and quantitative methods; marketing and customer analytics.

Professional Service

- Session co-chair, Production and Operations Management Society Annual Conference, 2023
- Session co-chair, INFORMS Annual Meeting, 2024

Applied Industry Experience

GlobalFoundries capstone project Troy, New York
Inventory planning and safety-stock analysis January–May 2020

Technical Skills

Software: Python, R, SQL, Tableau, Power BI, Mathematica, Excel, LaTeX.
